

LEED-EBOM

“GREEN”, NOT HOW YOU BUILD BUT HOW YOU MANAGE

The International Facility Managers Association, Building Owners & Manager Association, and the U.S. Green Building Council have collaborated to *maximize efficiency* of existing buildings through best management practices, retrofits, and performance assessment.

Lincoln Plaza in Orlando, FL
LEED EBOM, Certified by *ecoPreserve*

BUILDING EFFICIENCY

- Saves on immediate and ongoing operating costs
- Enhances resale and lease value of real estate

HUMAN EFFICIENCY

- Boosts productivity, morale and corporate loyalty
- Maximizes labor hours, collaboration, and productivity

ENVIRONMENTAL EFFICIENCY

- Reduces waste, chemical use, and pollution
- Improves indoor air quality & healthier workplaces

*ENERGY / WATER / WASTE REDUCTION · GREEN CLEANING
SITE MAINTENANCE · PURCHASING · INDOOR AIR QUALITY
OCCUPANT HEALTH · COMMUTING · MECHANICAL SYSTEMS*

IT'S ALL ABOUT BEST PRACTICES!

The LEED-EBOM process is a comprehensive approach to facility operations + management. It integrates best practices, measurement and ongoing improvement with the goal of

*REGARDLESS IF YOU ARE PURSUING
CERTIFICATION OR NOT,
LET **ECO**PRESERVE LEED YOU
IN THE **GREEN** DIRECTION!*
